Displays were setup including: current photos of the entire schoolgrounds, what a masterplan looks like, student written responses and illustrations, parent survey data for ranked wishes for future amenities.

An Introduction was made by Rory Sullivan

The Background on the project was provided by Theodora Rowlands

Jackman teacher Alex Maric-Jones walked us through the process of surveying the students on How they like to play, What they don't like about the schoolyard, How they want to play. Summaries of repeating themes were made for Primary grades and Junior grades and those summaries were reviewed.

Lisa Milne provided an overview of the results of the parent survey (survey monkey) which was completed in the last 48 hours and hasn't been fully analyzed. The hard data was discussed.

Liz West opened up the floor to questions and discussion including types of field solutions, drainage, the tdsb Turf Specialist, a parents dislike of artificial turf, how to manage dogs in the schoolyard, timing, order of next steps.

Attendees had the option of filling out a Reaction & Response sheet which reflected the above discussion points.

Everyone was advised that the project would be documented on the Parent Council Website.
